

# Installer Program

## ROOFING TECHNICAL TRAINING

**Gain hands-on roofing installation practices from the highly skilled experts at Westlake Royal Roofing Solutions™**

Westlake Royal Roofing Solutions™ will help you and your team learn the basics of roofing installation and labor saving techniques on all product lines; **Newpoint™ Concrete Roof Tile**, **Unified Steel™ Stone Coated Roofing**, **US Tile® Clay Roofing Products**, and **Westlake Royal™ Roofing Components**.

Roof installation is offered nationwide at Westlake Royal Roofing Solutions™ training facilities, or we can come to you\*.

**Learn from the industry's leading technical trainers on:**

- Choosing the right roof material
- Underlayment installation
- Batten or battenless installation
- Use of labor saving components
- Roof installation techniques
- Flashing details
- Product cutting techniques
- Hip and Ridge installation
- How to do a roof take off
- How to bid jobs for a profit

**Call Technical Training Team today to schedule your personalized training!**
