CONCRETE ROOF TILE COLLECTIONS

**NEWPOINT**<sup>TM</sup>  
CONCRETE ROOF TILE

**Westlake**  
Royal Roofing Solutions<sup>TM</sup>

# Our Texas Legacy.

## **Serving the Great State of Texas Since 1974**

We have proudly served the Texas market for over 50 years. Texas is home to legacy employees who have shaped the way we do business today. Our strong culture and commitment define the quality behind every tile.

Asphalt Shingle  
**139°**  
attic temperature

Concrete Tile  
**94°**  
attic temperature

# Why Tile?

## NATURAL PROTECTION

Attic temperatures measured using identical heat sources simulating the sun's radiation comparing Newpoint™ Cool Roof System to a common asphalt shingle installation. The result is less heat in the attic and lower energy bills.

Temperatures measured in simulated attics using identical heat sources simulating sun's radiation to compare Newpoint™ Cool Roof System to common asphalt shingle roof system.

# Hail Rated.

## HAIL RATED CONCRETE TILE ROOFS MAY PROVIDE INSURANCE REDUCTIONS

Newpoint™ has a complete offering of Class 3 and Class 4 Impact concrete tile, the highest hail performance certification recognized in the industry.

You may qualify for an insurance reduction when choosing one of Newpoint's hail certified roof tiles.

## EASY TO REPAIR

Unlike many other roofing materials, tile can be replaced individually without replacing the entire roof.

► The hail testing at Intertek's laboratory in Dallas, Texas under test protocol for FM 4473.

## HAIL TESTING

In the Class 4 hail test, 2 inch ice balls are shot at 104 feet per second (approx. 70 mph), to develop the intended kinetic energy. This test is the most rigorous test using the largest ice balls, impacting the product specimen 4-6 times.

# Material Matters.

## VALUE MATTERS

Westlake Royal Roofing Solutions™ stands behind the quality of our roof tile with a Fully Transferable, Non-Prorated Limited Lifetime Warranty.

## BEAUTY MATTERS

Our Newpoint™ concrete tiles have texture and substance, creating a true multidimensional look for your roof. Their natural colorways harmonize easily with other exterior building elements.

## DURABILITY MATTERS

Newpoint™ concrete tile gains strength over time, and usually meets building structure and wind rating code requirements. Tile will last 3.75 times longer than an asphalt shingle roof.

## SUSTAINABILITY MATTERS

Newpoint™ roof tile is locally made and sourced in Texas since 1974.

# Color Matters.

As the market leader, we strive to enhance the curb appeal of your home. We continuously develop new colors to harmonize with the shifting architectural trends in Texas. We take pride in the color quality and blending we provide.

# 3 STYLES

Newpoint™ concrete roof tile easily harmonizes with all 3 dominant architectural styles.

## TRADITIONAL

American adaptations of regional home styles from other time periods or areas of the world. Often mixed references.

COTTAGE  
CRAFTSMAN  
SPANISH COLONIAL  
FOURSQUARE  
NEW TRADITIONAL  
FRENCH CHATEAU

## TRANSITIONAL

Prefers the clean lines of contemporary architecture, but draws heavily on details and styles from traditional architecture.

RANCH  
PRAIRIE  
MISSION REVIVAL  
CONTEMPORARY FARMHOUSE

## CONTEMPORARY

Characterized by a preference for clean lines, open concepts, decoration, ample light sources, large windows, and lack of round forms.

MODERN  
NEW BARNHOUSE  
CONTEMPORARY  
MID CENTURY MODERN

Tejas España | Brazos Blend

## HIGH PROFILE COLLECTIONS

### Tejas España

Designed to reflect the classic style and distinctiveness of Spanish architecture.

P. 17

### Barcelona Impact

This modern interpretation of old world Spanish design creates a distinctive mission tile appearance. Designed to withstand severe weather conditions. Class 4 Hail Rated.

P. 22

Tejas España | Chestnut Burnt

Tejas España | Mission Red

Tejas España | Casa Grande Blend

County Slate | Impressionist

## LOW PROFILE COLLECTIONS

### Saxony® Country Slate

Unique beveled edges precisely define each roof tile for a staggered appearance, while its distinctive slate texture accurately reproduces the appearance of its natural counterpart.

P. 23

### Saxony® Country Slate Impact

Unique beveled edges define each roof tile for a staggered appearance, while its distinctive slate texture accurately reproduces the appearance of its natural counterpart.

P. 27

Design to help withstand severe weather conditions. Class 4 Hail Rated.

### Saxony® Shake

Captures rustic beauty of hand-hewn shakes. Ideal for French Country, Victorian Craftsman or Cottage architectural styling.

P. 29

### Saxony® Country Split Shake

This classic variation of both shake and slate tile adds a distinctive architectural style. Split Shake tiles are best suited for Cottage, Country and Traditional American Homes.

P. 30

### DESIGNER PRODUCT

### Madera 900

The most authentic, affordable replication of a hand-split cedar shake roof available. With its realistic wood shake surface, Madera 900 will complement any architectural style.

### Visualize

Picture your new roof with Newpoint™ Concrete Roof Tile Inspiration house photo gallery on our website.

Design your home with your dream roof by using our [Dream Home Visualizer](#). Upload your house image or use gallery images and the tool will auto-generate a rendering which you can use to try out different products in the design phase. Order Product Samples directly through the tool.

### Order A Sample

Deciding on the perfect roof can be overwhelming. So, instead of wondering what color or style will work, order a sample and take the guesswork out of your decision. It's just another way Newpoint™ Concrete Roof Tile makes it easy to buy with confidence.

### Architectural Tools

Our complete suite of architectural tools, including Arcat 3-Part Specs and CAD/BIM drawings, are available for download directly from our website.

### Online Ordering

Manage your orders through myWestlakeRoyal, a simple online tool to track product orders in real time, all from the convenience of your computer, tablet or smartphone. Sign-up for e-mail alerts to notify you of your order status.

### Limited Lifetime Warranty\*

As a brand you can trust, Newpoint™ Concrete Roof Tile offers one of the most comprehensive, fully transferable roofing warranties available on the market today.

### Follow Us On Social Media

See what everyone loves about Newpoint™ Concrete Roof Tile and get inspired on: Facebook, LinkedIn, YouTube, HOUZZ, Pinterest and Instagram.

\*For product warranty details, please visit [Newpoint Concrete Product Warranty](#) on our website. The warranties found there are the sole warranties applicable to Newpoint™ roofing products.

**Code Approval:** Some approvals are regional and only apply to locally produced products; please contact Newpoint™ before transporting product across state lines. Specifically, products used in the Miami Dade County region of Florida require special testing and recognition. All tiles have systems that are Class A fire rated.

**Disclaimer:** The printed colors shown in this brochure may vary from actual available tile colors. Before making a final selection, be sure to review actual tile samples and roof installations. Please contact your local sales office for further assistance. Inadvertent errors in this publication are subject to change without notice. No performance guarantee is offered or implied beyond that expressly indicated.

Efflorescence is a temporary surface condition which is common to all concrete products. The process is caused by the chemical nature of cement. This reaction can appear as an overall chalky white bloom (a softening of color) or in more concentrated patches. It is difficult to predict how long the effects of efflorescence will last. It depends on the type and amount of deposit as well as local weather conditions. The action of carbon dioxide and rainwater will gradually remove the deposit, in most cases, leaving the original color of the roof intact without further efflorescence occurring. It is superficial and in no way affects the quality or functional properties of the tile.

**Installation:** According to the Tile Roofing Institute loading guidelines, "To achieve a pleasant, random blend of color for your job, care should be taken upon loading to mix the tiles." (Source: 2015 Concrete and Clay Roof Tile Installation Manual). Please consult the Tile Roofing Institute (TRI) Installation guides for application recommendations.

**Cover:** Saxony® Country Slate | Shadow Grey - 75%; Charcoal Blend - 15%; Cobblestone - 10%

#### ABOUT WESTLAKE ROYAL ROOFING SOLUTIONS™

Westlake Royal Roofing Solutions™ is the combination of DaVinci® Roofscapes and the former Boral North America roofing product lines. The company is a recognized, national leader in durable and sustainable clay, composite, concrete, and steel roof systems and components. The company's offerings include US Tile® products, a legacy line of premium, stunning clay tile solutions manufactured to the highest standard of sustainability and craftsmanship: DaVinci® Roofscapes, beautiful and durable composite slate and shake roofing tiles; Newpoint™ Concrete Tile Roofing, the enduring line of concrete tile known for its superior strength, Class A fire rating and long-lasting beauty; Unified Steel™ Stone Coated Roofing, the ultra-lightweight roofing system which benefits from the structural strength of steel; and Westlake Royal™ Roofing Components, a full line of integrated roof components designed to deliver a higher standard of roof installation and performance.
