CONCRETE ROOF TILE COLLECTIONS

**NEWPOINT**<sup>TM</sup>  
CONCRETE ROOF TILE

**Westlake**  
Royal Roofing Solutions<sup>TM</sup>

Asphalt Shingle

**139°**

attic temperature

Concrete Tile

**94°**

attic temperature

# Why Tile?

## NATURAL PROTECTION

Attic temperatures measured using identical heat sources simulating the sun's radiation comparing Newpoint™ Cool Roof System to a common asphalt shingle installation. The result is less heat in the attic and lower energy bills.

# Material Matters.

## BEAUTY MATTERS

Our Newpoint™ concrete tiles have texture and substance, creating a true multidimensional look for your roof. Their natural colorways harmonize easily with other exterior building elements.

## DURABILITY MATTERS

Newpoint™ engineered tile is specifically designed for new build and reroof, helping provide Floridians protection from the elements.

## VALUE MATTERS

Westlake Royal Roofing Solutions™ stands behind the quality of our roof tile with a Fully Transferable, Non-Prorated Limited Lifetime Warranty.

## SUSTAINABILITY MATTERS

Newpoint™ roof tile is locally made and sourced in Southern California.

# Color Matters.

As the market leader, we strive to enhance the curb appeal of your home. We continuously develop new colors to harmonize with the shifting architectural trends in Southern California. We take pride in the color quality and blending we provide.

# 5 STYLES

Newpoint™ concrete roof tile easily harmonizes with all three dominant architectural styles.

## TRADITIONAL

American adaptations of regional home styles from other time periods or areas of the world. Often mixed references.

MEDITERRANEAN  
TUSCAN  
SPANISH MISSION  
CRAFTSMAN / BUNGALOW  
COLONIAL

## TRANSITIONAL

Prefers the clean lines of contemporary architecture, but draws heavily on details and styles from traditional architecture.

RANCH / SPLIT LEVEL  
PRAIRIE STYLE  
MIXED LOOKS

## CONTEMPORARY

Characterized by a preference for clean lines, open concepts, decoration, ample light sources, large windows, and lack of round forms.

MODERN  
MID-CENTURY MODERN

Barcelona | Casa Grande Blend

## HIGH & MEDIUM TILE PROFILE COLLECTIONS

### Barcelona

Barcelona is reminiscent of the Spanish roofs found on early missions in California, dramatically capturing the beautiful, rustic appearance of the Old World.

P. 13

### Boosted Barcelona Caps

Available installation application of Barcelona which creates the appearance of an authentic mortar-boosted tile.

P. 19

### Villa 900

Emulates beautiful Mediterranean styles found in Italy and Southern France.

P. 21

Barcelona | Salerno Clay

Boosted Barcelona | Cliffside

Villa | Casa Grande Blend

Slate | Charcoal Brown Blend

## LOW PROFILE COLLECTIONS

### Saxony® 900 Slate

Beautiful design representative of styles found in England, Northern Europe and the US Eastern Seaboard. Versatile enough to accentuate any architectural style.

P. 25

### Saxony® 900 Country Slate

Unique beveled edges precisely define each roof tile for a staggered appearance, while its distinctive slate texture accurately reproduces the appearance of its natural counterpart.

P. 29

### Saxony® 900 Shake

Captures rustic beauty of hand-hewn shakes. Ideal for French Country, Victorian Craftsman or Cottage architectural styling.

P. 31

#### DESIGNER PRODUCT

### Madera 900

Madera 900 is the most affordable, authentic replication of a hand-split cedar shake roof available.

P. 35

#### DESIGNER PRODUCT

### Saxony® 900 Split Old English Thatch

Split Old English Thatch combines the look of a natural slate with the varied appearance of a hand-hewn split tile capturing the charming architecture of an old English countryside

P. 37

#### DESIGNER PRODUCT

### Saxony® 900 Hartford® Slate

Hartford® Slate receives a surface texture designed to emulate the surface of natural slate. Natural slate is the traditional roofing material used for homes in the Eastern States, Great Britain and Northern Europe.

**Visualize**

Picture your new roof with Newpoint™ Concrete Roof Tile Inspiration house photo gallery on our website.

Design your home with your dream roof by using our **Dream Home Visualizer**. Upload your house image or use gallery images and the tool will auto-generate a rendering which you can use to try out different products in the design phase. Order Product Samples directly through the tool.

**Order A Sample**

Deciding on the perfect roof can be overwhelming. So, instead of wondering what color or style will work, order a sample and take the guesswork out of your decision. It's just another way Newpoint™ Concrete Roof Tile makes it easy to buy with confidence.

**Architectural Tools**

Our complete suite of architectural tools, including Arcat 3-Part Specs and CAD/BIM drawings, are available for download directly from our website.

**Online Ordering**

Manage your orders through myWestlakeRoyal, a simple online tool to track product orders in real time, all from the convenience of your computer, tablet or smartphone. Sign-up for e-mail alerts to notify you of your order status.

**Limited Lifetime Warranty\***

As a brand you can trust, Newpoint™ Concrete Roof Tile offers one of the most comprehensive, fully transferable roofing warranties available on the market today.

**Follow Us On Social Media**

See what everyone loves about Newpoint™ Concrete Roof Tile and get inspired on: Facebook, LinkedIn, YouTube, HOUZZ, Pinterest and Instagram.

\*For product warranty details, please visit [Newpoint Concrete Product Warranty](#) on our website. The warranties found there are the sole warranties applicable to Newpoint™ roofing products.

**Code Approval:** Some approvals are regional and only apply to locally produced products; please contact Newpoint™ before transporting product across state lines. Specifically, products used in the Miami Dade County region of Florida require special testing and recognition. All tiles have systems that are Class A fire rated.

**Disclaimer:** The printed colors shown in this brochure may vary from actual available tile colors. Before making a final selection, be sure to review actual tile samples and roof installations. Please contact your local sales office for further assistance. Inadvertent errors in this publication are subject to change without notice. No performance guarantee is offered or implied beyond that expressly indicated.

Efflorescence is a temporary surface condition which is common to all concrete products. The process is caused by the chemical nature of cement. This reaction can appear as an overall chalky white bloom (a softening of color) or in more concentrated patches. It is difficult to predict how long the effects of efflorescence will last. It depends on the type and amount of deposit as well as local weather conditions. The action of carbon dioxide and rainwater will gradually remove the deposit, in most cases, leaving the original color of the roof intact without further efflorescence occurring. It is superficial and in no way affects the quality or functional properties of the tile.

**Installation:** According to the Tile Roofing Institute loading guidelines, "To achieve a pleasant, random blend of color for your job, care should be taken upon loading to mix the tiles." (Source: 2015 Concrete and Clay Roof Tile Installation Manual). Please consult the Tile Roofing Institute (TRI) Installation guides for application recommendations.
