Asphalt Shingle

139°

attic temperature

Concrete Tile

94°

attic temperature

Why Tile?

NATURAL PROTECTION

Attic temperatures measured using identical heat sources simulating the sun's radiation comparing Newpoint™ Cool Roof System to a common asphalt shingle installation. The result is less heat in the attic and lower energy bills.

Material Matters.

BEAUTY MATTERS

Our Newpoint™ concrete tiles have texture and substance, creating a true multidimensional look for your roof. Their natural colorways harmonize easily with other exterior building elements.

DURABILITY MATTER

Newpoint™ engineered tile is specifically designed for new build and reroof, helping provide protection from the elements.

VALUE MATTERS

Westlake Royal Roofing Solutions™ stands behind the quality of our roof tile with a Fully Transferable, Non-Prorated Limited Lifetime Warranty.

SUSTAINABILITY MATTERS

Newpoint™ roof tile is locally made and materials sourced in Arizona.

Color Matters.

As the market leader, we strive to enhance the curb appeal of your home. We continuously develop new colors to harmonize with the shifting architectural trends in Arizona. We take pride in the color quality and blending we provide.

3 STYLES

Newpoint™ concrete roof tile easily harmonizes with all three dominant architectural styles.

TRADITIONAL

American adaptations of regional home styles from other time periods or areas of the world. Often mixed references.

MEDITERRANEAN
TUSCAN
SPANISH MISSION
CRAFTSMAN / BUNGALOW
COLONIAL

TRANSITIONAL

Prefers the clean lines of contemporary architecture, but draws heavily on details and styles from traditional architecture.

RANCH / SPLIT LEVEL
PRAIRIE STYLE
MIXED LOOKS

CONTEMPORARY

Characterized by a preference for clean lines, open concepts, decoration, ample light sources, large windows, and lack of round forms.

MODERN
MID-CENTURY MODERN

Mission "S" | La Terra Blend

HIGH PROFILE COLLECTIONS

Mission "S"

Mission "S" is reminiscent of the Spanish roofs found on early missions in the Southwest, dramatically capturing the beautiful, rustic appearance of the Old World.

P. 13

Boosted Barcelona Caps

Available installation application of Mission "S" which creates the appearance of an authentic mortar-boosted tile.

P. 16

Villa

Emulates beautiful Mediterranean styles found in Italy and Southern France.

P. 17

Mission "S" | Old Mesquite Blend

Villa | Hopi Blend

Mission "S" | Terra Cotta

LOW PROFILE COLLECTIONS

Saxony® 900 Slate

Beautiful design representative of styles found in England, Northern Europe and the US Eastern Seaboard. Versatile enough to accentuate any architectural style.

P. 19

Saxony® 900 Shake

Captures rustic beauty of hand-hewn shakes. Ideal for French Country, Victorian Craftsman or Cottage architectural styling.

P. 21

DESIGNER PRODUCT

Madera 900

Madera 900 is the most affordable, authentic replication of a hand-split cedar shake roof available.

Finishing Touches

Visualize

Picture your new roof with Newpoint™ Concrete Roof Tile Inspiration house photo gallery on our website. Design your home with your dream roof by using our [Dream Home Visualizer](#). Upload your house image or use gallery images and the tool will auto-generate a rendering which you can use to try out different products in the design phase. Order Product Samples directly through the tool.

Order A Sample

Deciding on the perfect roof can be overwhelming. So, instead of wondering what color or style will work, order a sample and take the guesswork out of your decision. It's just another way Newpoint™ Concrete Roof Tile makes it easy to buy with confidence.

Architectural Tools

Our complete suite of architectural tools, including Arcat 3-Part Specs and CAD/BIM drawings, are available for download directly from our website.

Online Ordering

Manage your orders through [myWestlakeRoyal](#), a simple online tool to track product orders in real time, all from the convenience of your computer, tablet or smartphone. Sign-up for e-mail alerts to notify you of your order status.

Limited Lifetime Warranty

As a brand you can trust, Newpoint™ Concrete Roof Tile offers one of the most comprehensive, fully transferable roofing warranties available on the market today. For product warranty details, please see Newpoint Concrete Product Warranty on our website at [westlakeroyalroofing.com/resources/warranties/](#). The warranty found there is the sole warranty applicable to Newpoint™ roofing products.

About Westlake Royal Roofing Solutions™

The Roofing Solutions portfolio from Westlake Royal Building Products™ is a recognized, national leader in durable and sustainable clay, composite, concrete, and steel roof systems. Encompassing a suite of materials that provide strength, versatility, and refinement, our portfolio includes US Tile® Clay Roofing Products, Newpoint™ Concrete Roof Tile, Unified Steel™ Stone Coated Roofing, DaVinci® Roofscapes, and Westlake Royal™ Roofing Components, all designed to deliver a higher standard of roof installation, performance, and design.

Code Approval: Some approvals are regional and only apply to locally produced products; please contact Newpoint™ before transporting product across state lines. Specifically, products used in the Miami Dade County region of Florida require special testing and recognition. All tiles are Class A fire rated.

Disclaimer: The printed colors shown in this brochure may vary from actual available tile colors. Before making a final selection, be sure to review actual tile samples and roof installations. Please contact your local sales office for further assistance. Inadvertent errors in this publication are subject to change without notice. No performance guarantee is offered or implied beyond that expressly indicated.

Efflorescence is a temporary surface condition which is common to all concrete products. The process is caused by the chemical nature of cement. This reaction can appear as an overall chalky white bloom (a softening of color) or in more concentrated patches. It is difficult to predict how long the effects of efflorescence will last. It depends on the type and amount of deposit as well as local weather conditions. The action of carbon dioxide and rainwater will gradually remove the deposit, in most cases, leaving the original color of the roof intact without further efflorescence occurring. It is superficial and in no way affects the quality or functional properties of the tile.

Installation: According to the Tile Roofing Institute loading guidelines, "To achieve a pleasant, random blend of color for your job, care should be taken upon loading to mix the tiles." (Source: 2015 Concrete and Clay Roof Tile Installation Manual). Please consult the Tile Roofing Institute (TRI) Installation guides for application recommendations.

BE BOUNDLESS™

THE PRODUCTS TO DO EVERYTHING. THE POWER TO DO EVEN MORE.

We're answering "what ifs" on a whole new level—from the solutions we create to the dreams we build. We have the tools and technology to tell design stories on a bigger scale and on a more personal level. There are no limits to how far we innovate, how deeply we express, how strongly we commit and how boldly we go.

Together let's Be Boundless™.
