

Unified Steel® Screws

THE SMARTEST CHOICE FOR ANY STONE COATED STEEL ROOF

WEATHER
RESISTANT

SAVE
TIME & MONEY

EASY
INSTALLATION

All Unified Steel screws have been performance tested and are coated with L3 Dura Protec™, a corrosion resistant coating, and the panel screw heads are colored to blend with the panels and trim. The sharp T-17 self-tapping point coupled with the unique H-Low™ threads ensures a fast and easy install every time.

Unified Steel® Screws

MAKE YOUR ROOF SECURE

Weather Resistant

Designed for any climate, all Unified Steel high-grade carbon screws have been corrosion tested to 1,000 hours (Salt Spray ASTM B117). We also offer stainless steel panel screws that have been tested to 1,500 hours of Salt Spray. These characteristics make Unified Steel screws the best choice to fasten any stone coated steel roof product.

Save Time and Money

Each screw has a combination of a sharp T-17 self-tapping point along with high and low threads to ensure they drive quickly through the multi layers of steel panels and into the wood decking or battens. By using screws to secure the stone coated steel roof panels and accessories makes it easier for repairs and retrofits with solar, skylights or other roof upgrades in the future.

PANEL SCREWS							
	2" Length - HWH		2.5" Length - HWH		Packaging	Screw Head Colors	Unified Steel™ Panel Color
	Carbon Steel	Stainless Steel	Carbon Steel	Stainless Steel			
EXPOSED FASTENED				#10 x 2" 500/Bag 2,000/Box 22 lbs/Box (10 Kgs) Nut Driver Included/Box	Gold	Sunset Gold, Santa Fe
